

ValueCentric Successfully Completes Their SAS 70 Type II Audit for the Fourth Consecutive Year

Orchard Park, NY, December 19, 2009, --- ValueCentric, the leading provider of on-demand data management and performance analytics to the pharmaceutical industry, announced their fourth consecutive successful completion of their SAS 70 Type II Audit for the period ending October 31, 2009. The service audit was performed by McGladrey & Pullen, LLP, under Statement of Auditing Standards No. 70 (SAS 70), assuring that ValueCentric's processes and controls are accurate, complete and in accordance with the standards accepted under the Sarbanes-Oxley Act for demonstrating compliance by a service organization.

"We are very pleased with the service auditor's report. Our success in passing this voluntary SAS 70 Type II annual audit allows our customers to feel confident knowing the exchange of their data and our on-demand services meet their security needs. This demonstrates the strength of our commitment to ensure the highest level of security, privacy and redundancy for each of our customers, guaranteeing that all their data is transferred through a secure gateway, validated and monitored 24 hours a day, 7 days a week." stated Bill Bottlinger, Chief Information Officer at ValueCentric.

George Muench of AstraZeneca states, "Because our data is sensitive and must comply with the Sarbanes-Oxley Act of 2002, it is essential that ValueCentric has detailed and well documented controls in place to ensure the integrity and confidentiality of our data being stored and transmitted. ValueCentric's annual SAS 70 certification helps us meet our on-going Sarbanes-Oxley compliance requirements."

About ValueCentric

ValueCentric, LLC is the leading provider of on-demand data management and performance analytics to the pharmaceutical industry. The company's flagship product, ValueTrak, is a Unified Data and Services Platform that enables all participants of the pharmaceutical supply chain to share, analyze and report critical supply chain data such as sales, inventory, orders, chargebacks, returns and prescription information.

Over 160 pharmaceutical companies, including world-class enterprises such as AstraZeneca, Johnson & Johnson, Merck, Teva Pharmaceuticals and others utilize ValueTrak on a daily basis to track how products flow through distribution networks and out to patients.
